

SCIENCE BENCH

NEW

KEY STAGE
KS3-7

MOBILE SCIENCE BENCH

The mobile science bench can be used to turn any classroom into a laboratory. It's compact size means it can be used anywhere that space is at a premium and is easily stored when not in use. It can even work as a temporary solution whilst your laboratory is out of action. The bench includes equipment and technology and the trays can either be stocked to map your curriculum or as a bespoke package for a particular subject

area. The integrated audio and visual components can be used to present animated or pre-recorded experiments.

The mobile science bench is a cost-effective and mobile solution to teaching science in the classroom and comes in two versions: one with electrics and one with an integrated sink. Both benches come with a lab standard 32mm work top which is chemical, heat and impact resistant.

LAB CUSHION™ MULTI-PURPOSE INTERLOCKING SINK-LINER

The Multi-Purpose interlocking Sink-liner that prevents glass breakages through cushioning and prevents blocked sinks by trapping objects that would normally become lodged in waste pipes/traps. Simply combine the required number of pieces to cover base of sink and then cut to size. Whilst this multi-purpose matting was initially designed to line the bottom of sinks to prevent glass breakages customers have come up with several additional uses for it!

- Draining rack
- Bench Protection Matting
- Heat-proof gripper

STEPPA STOPPA™

The ISG Steppa-Stoppa is a simple yet innovative product designed to replace the standard rubber stoppers. The stopper is made from blended polymer and features an incremental taper to suit most applications and eliminating the need for multiple sized rubber stoppers.

The stopper is available in two sizes (small and large) and both come in a box of 10 stoppers. They are autoclavable. The stoppers work best when dry and a microfiber drying cloth is provided for your convenience.

A BESPOKE CURRICULUM MAPPED SERVICE

PROFESSIONAL, BESPOKE TURNKEY DESIGN, MANUFACTURE AND INSTALLATION OF LAB FURNITURE

EDU-LIST A UNIQUE SERVICE OF CURRICULUM MAPPED RESOURCES TAILORED TO YOUR EXACT NEEDS BASED ON CLASS SIZE, CURRICULUM AND COURSE.

What is the Edu-List service?

Edu-list is a service which looks at every schools needs and requirements individually and tailors the outcomes to suit each.

The first step is to determine the exact details of the specifications for the school. This is done through a detailed questionnaire which determines class sizes, number of labs/prep rooms, curriculum and course being followed and a rough idea of budget.

When this is completed the specification is draw up by our curriculum team. Then finally we work with you to tweak and change the list to suit exactly your needs and preferences.

Once the details of the list and T&Cs are signed off the document is sent to the production team who prepare and pack the order for safe reliable transport to your school.

At this time the final curriculum mapped document is sent to yourselves to allow lessons to be planned and speed up lesson preparation.

Ongoing free training and support are always available and technical queries are handled quickly and efficiently by our highly trained team.
